Supported Internships for young people with learning disabilities

Mission EmployAble are delighted to be working in partnership with Buckinghamshire College Group to offer a Supported Internship programme which runs annually from September to July.

- Are you 19-25 years old with an active EHCP?
- Can you travel independently (by bus, train or SEND taxi from Herts, Bucks and beyond)?
- Are you a young person with a learning disability who is keen to develop new skills in the workplace?
- Would you like a paid job?

If you answered yes to the above, a Supported Internship with Mission EmployAble could be the perfect opportunity for you!

Mission EmployAble is determined to help young people with learning disabilities lead fulfilled lives and we believe that supporting you to find paid employment is a crucial part of that

mission. Our vision is to give you the independence and self-confidence that will help you find paid work after your internship, so that you feel valued by your community.

Throughout your work experience you will receive personalised support from our Mission EmployAble training manager Cass Langham, who will help you with on-the-job training and with Maths, English, independence and employability classes,

as well as with specific skills for your job. But it's not all about work! As an intern, you will be encouraged to build positive relationships with your colleagues through team-building activities and events.
